The 41st DASC seeks competitive tutorial proposals on emerging topics in aviation and aerospace. The selected tutorials shall be held September 18th–19th, typically in a 3-hour slot, between 8am and 6pm. At this point of time, tutorials are planned to be in-person at the conference. But based on the circumstances brought by the pandemic we may need to offer hybrid or fully online tutorial formats. If you have any questions, reach out to Professional Education/Tutorial Chair: Krishna Sampigethaya (sampiger@erau.edu).

TUTORIAL PROPOSAL FORMAT

The proposal should concisely and clearly describe the tutorial content and objectives, not exceeding 5 pages in single space, 12-pt font, including:

1. Title of the tutorial.
2. Abstract, objectives and motivation.
3. Timeliness and intended audience.
4. Name, affiliation, and a short biography of each tutorial speaker.
5. A description of the technical issues that the tutorial addresses.
6. An outline of the tutorial content, including its tentative schedule.
7. Format and delivery tutorial: lecture; lecture + hands-on; lecture + equipment training, or something else.
8. What is expected from the tutorial attendees (knowledge, resources, etc.).
9. What resources are given to the attendees (handouts, USB flash drive, laptop, etc.); the conference provides meeting room and AV media equipment.
10. Duration of the tutorial: A typical DASC tutorial is 3 hours: two 80-minute segments separated by a 20-minute break. Longer duration needs justification.
11. A description of past experience of the speaker on the topic of the tutorial.
12. State if a similar tutorial was offered in a past DASC, how your tutorial differs.

TUTORIAL PROPOSAL SUBMISSION

The tutorial proposal should be emailed directly to the tutorial chairs as a single PDF file.
